I have a query that selects a list of articles and makes several changes to the article. However when updating, I'm receiving this error: "Trying to get property of non-object" The error appears on this line of code: \$sqlInsert = "UPDATE `articles` SET `article_title` = '{\$article_title}', `article_id` = '{\$article_id}', `article_author` = '{\$article_author}' WHERE `article_id` = '{\$article_id}"; If anyone could help it would be much appreciated. // Validate User Input

The shares were purchased through a donation of Toyota Motor Corporation's stake in BAIC to Nissan's China Business Unit, at Nissan's suggestion. Nissan intends to participate in BAIC's future operations, including sales in China. The new relationship, which will strengthen Nissan's presence in China, comes at a time when Nissan's global car sales are in their first year of recovery and Toyota's are

expected to post a 17.5% decline. f988f36e3a
